2026 International Class & Double Degree

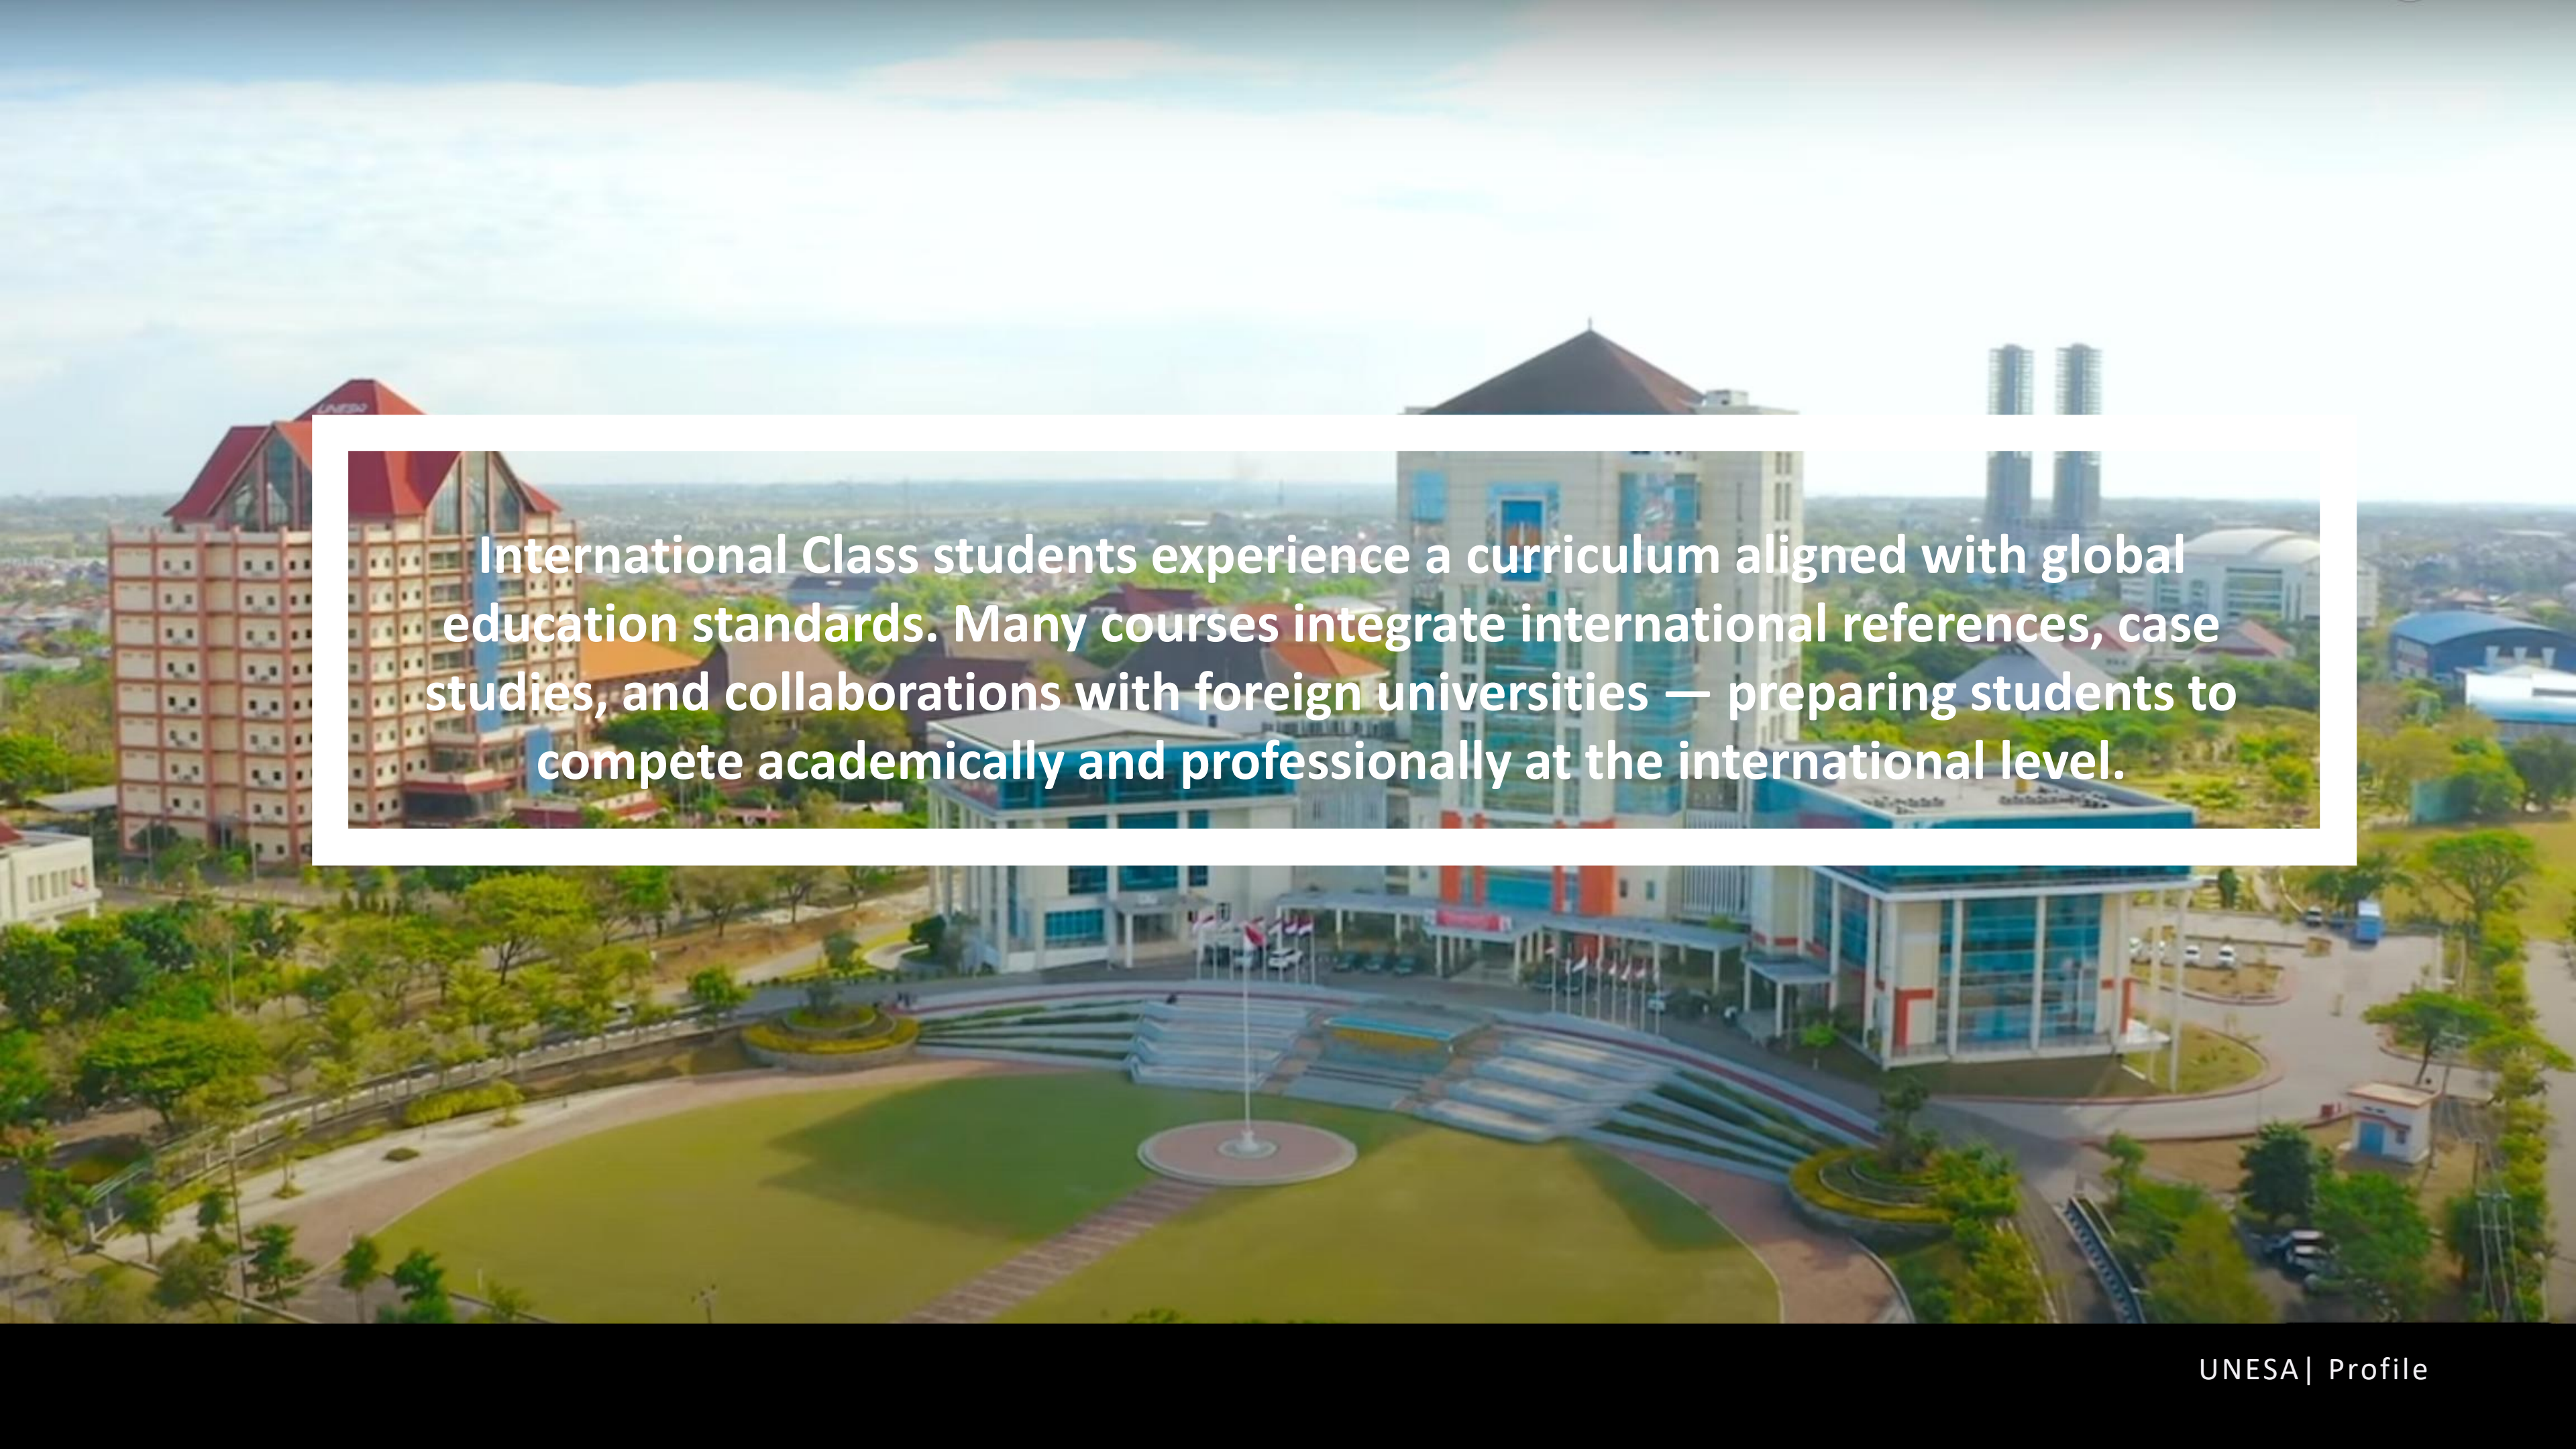

Prepared by the
Directorate of Education and Learning
Transformation

Table of Contents

1. International Class
2. International Exposure
3. International Undergraduate Program
4. Double Degree

An aerial photograph of a university campus. In the foreground, there is a large, well-maintained green lawn. To the right of the lawn is a modern, multi-story building with a glass facade and a red and white striped awning. To the left of the lawn is a large, multi-story building with a red roof and a grid-like facade. In the background, there are more buildings and a city skyline under a blue sky with some clouds.

International Class students experience a curriculum aligned with global education standards. Many courses integrate international references, case studies, and collaborations with foreign universities — preparing students to compete academically and professionally at the international level.

Joint/ Double Degree Program

Aspect	Joint Degree	Double Degree
Curriculum Design	The curriculum is jointly developed and integrated by both partner universities. Courses are designed together to form a single, unified academic plan.	Each university maintains its own curriculum, and students must fulfill both sets of degree requirements separately (though some credits may overlap).
Curriculum Similarity	High similarity and alignment — both institutions agree on course content, learning outcomes, and assessment methods. There is strong academic coherence. (>40%)	Moderate or low similarity — curricula differ between institutions, as each follows its own academic structure and standards. Only partial equivalence or credit recognition may exist. (<40%)
Course Equivalence	Courses are mutually recognized as part of the same joint program; no duplication.	Some courses may be cross-recognized, but many must be taken separately to meet each degree's requirements.
Degree Outcome	One single degree certificate jointly issued by both universities.	Two separate degree certificates, one from each university.
